# BLACK POLYAMIDE ADH 10 STK

Cena

**84,99 zł**

## Opis produktu

The TECBOND 7718 from Power Adhesives is a synthetic polymer based black hot melt adhesive with a very low viscosity for potting and encapsulating that runs well through most 12mm glue guns. The formulation is pigmented 'Black' to prevent the encapsulated components being visible, the setting time is usually less than 2 minutes. The use of a hotmelt speeds up application as there is no mixing and any unused material remains in the glue gun ready for next time, so there is no waste.

- Application by glue gun is quick, accurate and safe
- Medium molten tack
- Nominal length of 250mm
- 10x10 stick pack carbon quantity
- Stick dispenser
- Suggested application temperature range from 190°C to 215°C
- 135°C of heat resistance (BS5350 Part H3)

## Applications

Industrial

## Footnotes

Store in a clean dry place at temperatures between 5°C and 30°C with boxes closed.
